EXPERIENCE

Venture Capital & Deal Sourcing Analyst

Jan 2026 – Mar 2026

Energy Innovation Capital

Remote

- Conducted due diligence on investment opportunities by analyzing fundraising history, team composition, and tech
- Reviewed SEC 10-K filings for 10+ companies to assess financial viability and business operations
- Produced synthesis reports covering market opportunity, competitive landscape, team assessment, and risk analysis

Student Member, Board of Trustees

Sep 2024 – Jun 2025

Knox College

Galesburg, IL

- Provided feedback on debt restructuring and alternative investments during termly Finance Committee meetings
- Elected to manage \$500K institutional budget across 50 student organizations, reducing wasteful expenditures by 20% through systematic transaction reviews, fraud detection, and compliance controls
- Delivered termly Board presentations translating variance analysis into actionable policy recommendations for institutional leadership

Provost Search Committee Member

Oct 2024 – Mar 2025

JM Search

Chicago, IL

- Selected as sole student representative on executive search committee, partnering with JM Search consultants and Board members to evaluate candidates for Knox College's Provost position
- Conducted 8 full-day interviews, assessing candidates on vision and leadership to inform hiring decisions
- Reviewed CVs and references, contributing final recommendations to President and Board of Trustees

Consumer Behavior & Travel Market Analyst

Feb 2025 – Mar 2025

Expedia Group

Remote

- Analyzed consumer behavior datasets to identify travel trends and synthesize findings into stakeholder reports
- Applied quantitative methods to evaluate market segmentation and demand patterns across travel categories
- Supported data-driven business strategy recommendations by translating complex analytics into actionable insights

PROJECTS

Financial Modeling & Valuation Analysis

Jan 2026

- Built DCF models for Netflix and Chipotle by extracting SEC data and forecasting cash flows
- Conducted bear, base, and bull scenario analyses with variance testing on revenue and margin assumptions
- Challenged management guidance through peer benchmarking and historical trend analysis for realistic valuations

Historical Economic Data Verification Project | *Richter Summer Research Grant*

Jun 2025 – Aug 2025

- Verified 20 years of economic data from British Library ledgers by identifying gaps and reconciling discrepancies
- Performed validation using Excel pivot tables and subtotals to match ledger totals with transaction entries
- Conducted econometric panel analysis using STATA and R, revealing significant negative relationships between lagged crime and agricultural productivity, with order crimes correlating strongest to income inequality

SKILLS

Technical Proficiency: SQL, Excel (Pivot Tables, VLOOKUP, Data Validation), PowerPoint, Tableau, Python, R, STATA, Financial Statement Analysis, GAAP, Budget Variance Analysis, Internal Controls

Certifications: Financial Modeling & Valuation Analyst (FMVA), Financial Planning & Analysis Professional (FPAP) – Corporate Finance Institute | Associate Data Analyst in SQL – DataCamp | SAP ERP Essential Training, SAP Financials Essential Training – LinkedIn Learning
